

# Discovery Tour

Visit a  
German Ghost Town  
on the  
Labrador coast.

*Rapid Lake Lodge Inc.*

## *Visit Hebron, a German Ghost Town...*

Imagine a German Ghost Town on the remote Labrador coast. Hebron was wiped out by an epidemic of Spanish influenza in 1918. Walk among the wooden buildings imported by steamboat from England and Germany in 1831 and find an old church in sculpted wood such as those observed in places of worship throughout Old Europe. Return to Rapid Lake at the end of the day.

*Hebron Ghost Town  
1 day*

The buildings of the original mission still stand today, and are in reasonably good condition considering the passage of time and the site is occasionally visited by cruise ships.
