

Torngat Mountains

Flying

The Ungava Bay and the Labrador Coast

If you have ever dreamed of seeing polar bears, gigantic icebergs and towering waterfalls at your wings tips, then this trip is for you.

Guided tour available

Day 2+3 You have many options for exploring the grandeur of the Torngat Mountains. The Land's End air route is unique for seeing gigantic icebergs and polar bears, while the Kaumajet and Torngat Mtn scenic air routes have some phenomenal fjords and canyons vistas that are waiting to impress you.

Day 1 After meeting you on the beach, we'll register you and give you a precise briefing on the scenic air routes. You may now opt to fly one of the route or choose to fish Arctic char for the evening meal.

Ungava Bay

Fishing

Arctic Char

Come test yourself against a real fighter, the Arctic char. These powerful swimmers migrate up our mighty rivers and leap our rocky falls to reach the spawning grounds where they hatched. Take a deep breath when an Arctic char take the lure. You're in for a battle of skill against pure instinct.

Day 1 +2 Drop your fishing line into a gravel bottom river pool and fish for arctic char.

Day 3+4 Fly from the Ungava Bay to the Labrador coast taking in sights along the way including the ghost town of Hebron. You'll spend most of the day enjoying the splendor of the Tomgat Mountains.

Our coastal rivers provide a path for huge runs of migrating Arctic char.

The Barnoin River camp

Most seaplane and wheelplane pilots come to Arctic

Labrador Coast

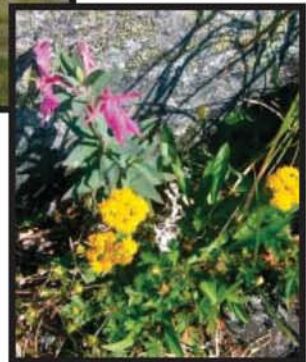

Hiking

Hebron Ghost Town

Imagine a German Ghost Town on the remote Labrador coast. A three mile walk through tundra terrain leads you to Hebron, a mysterious ghost town which was wiped out by an epidemic of Spanish influenza in 1918. Walk among the wooden buildings imported by steamboat from England and Germany and find an old church in sculpted wood such as those observed in places of worship throughout Old Europe.

Day 1 On your way to Hebron fly along the Koroc River and Saglek fjord to observe some impressive waterfalls, canyons and rock formations. Walking to the ghost town you'll see caribou in their natural habitat. In between the rocks you'll find a multitude of wild flowers taking advantage of the 20 hours daylight. Keep your eyes wide open and you'll discover hundreds of year old rock cairns and burial site.

Quebec to fish Char and to see the spectacular scenery.
